Description

SPECIAL PRICES ON BULK ORDERS

Deluxe Model.

This is a robust unit that stand 980mm high and is free standing & very stable on most surfaces. It has a variable dispensing volume from 1ml to 3ml per application. The unit has a side panel that when removed allows easy access to change the volume dispensed.

It has a concealed 1lt container that can be easily removed and refilled. The unit requires little maintenance and is easily cleaned.

The Cobra.

The unit is sturdy and stable and stands 980mm high. It is a more industrial unit and although it shares the same pump system as the Deluxe Model, it is a fixed dispense volume of 1ml. It has the added advantage of using both 1lt and 5lt containers that can be easily refilled or replaced. It requires almost no maintenance.
